all about OBJECT FUNCTIONS

all about CATEGORIES

all about **CATEGORIES**
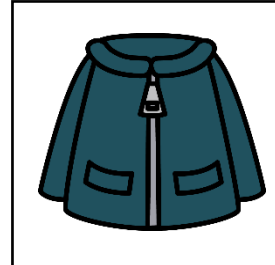

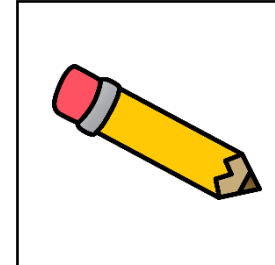

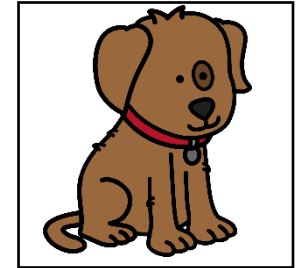

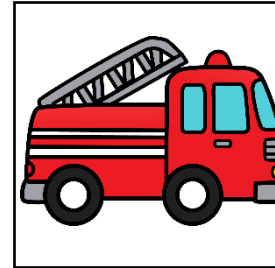

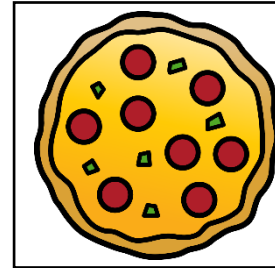

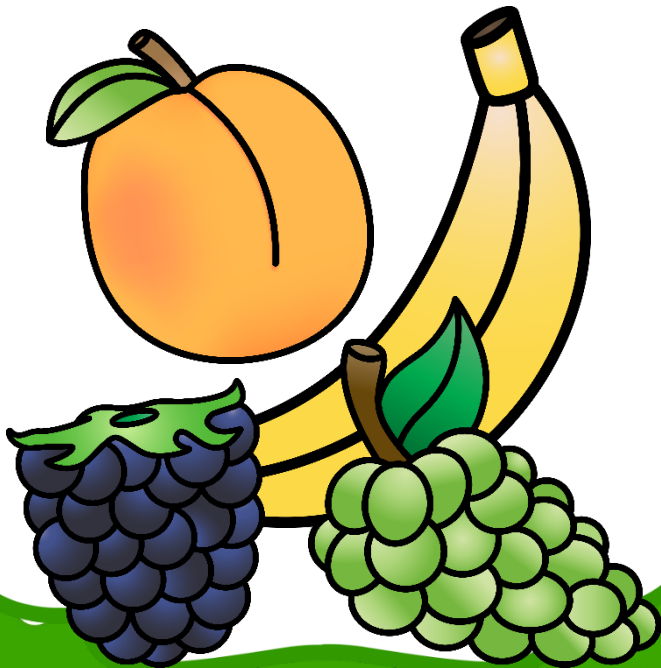

A category is a group of things that go together.
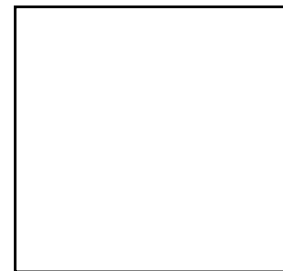

We can describe things by telling the group.
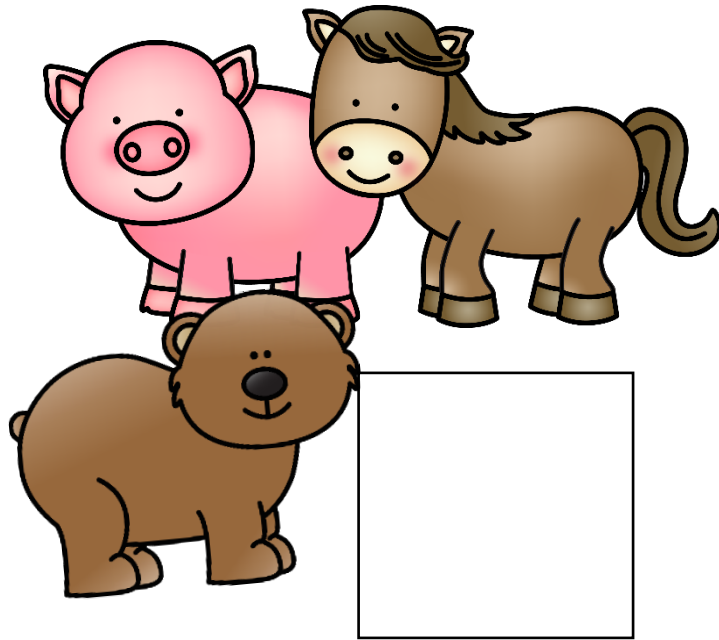

We can remember to tell what group something is in.

Some groups are animals, food, and vehicles.

A dog goes in the animals group.

Pizza goes in the food group.
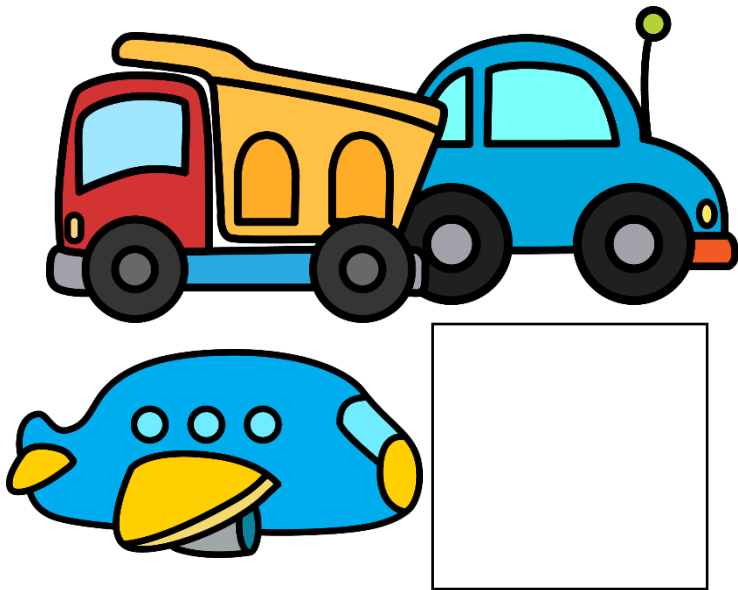

A pencil goes in the school supplies group.

Rain goes in the weather group.

A coat goes in the clothes group.

Basketball goes in the sports group.
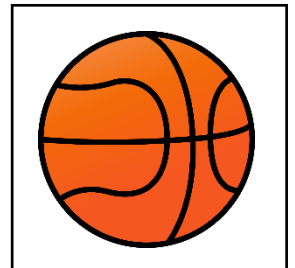

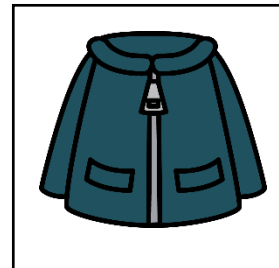

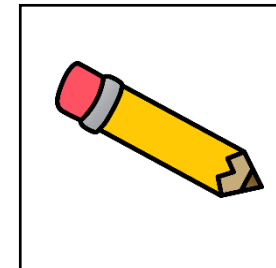

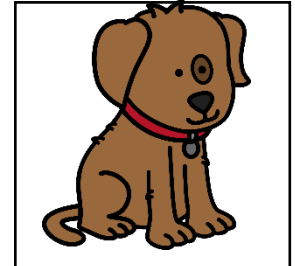

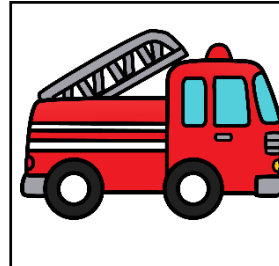

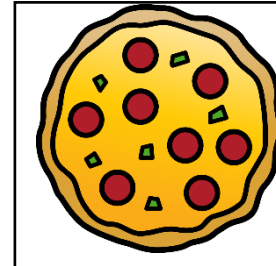

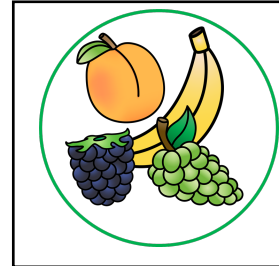

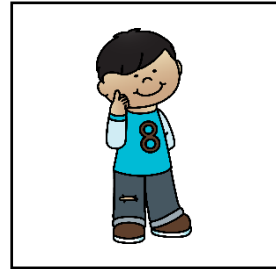

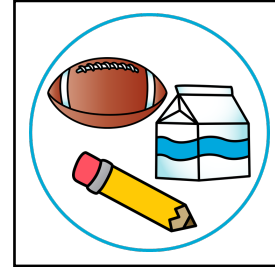

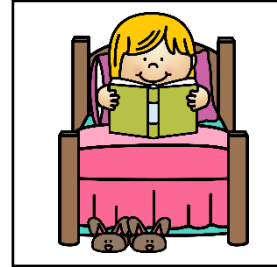

A fire truck goes in the vehicles group.
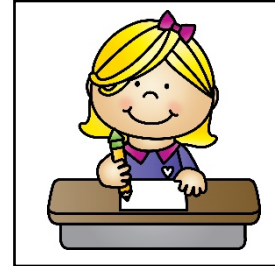

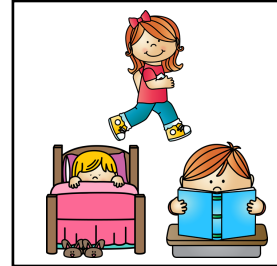

A doll goes in the toys group.

What other groups can you think of?

# all about
OBJECT
FUNCTIONS
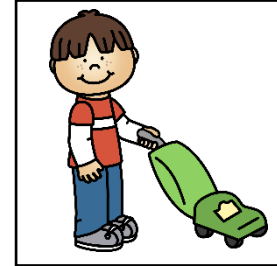

A function is what a thing does, or what you do with it.
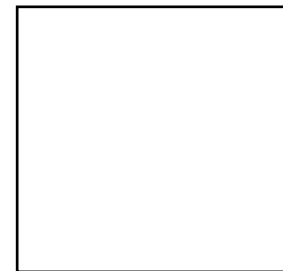

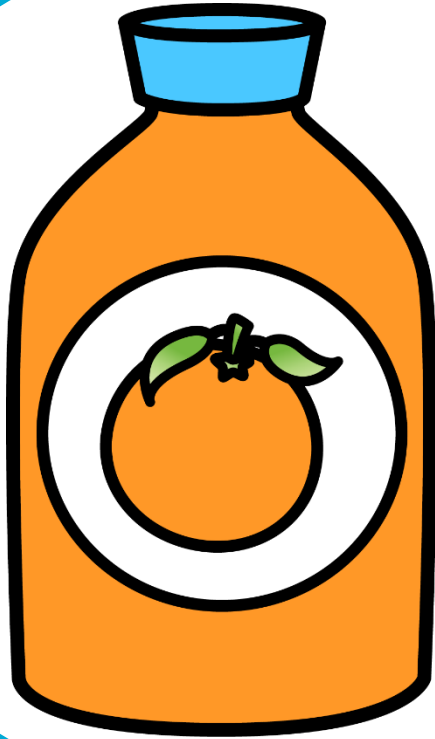

We can describe things by telling what they do.

I can remember to tell what something does.

Some things that people do are read, sleep, and run.

What do you do with juice?

What do you do with a book?

What do you do with a football?

What do you do with a pencil?

What do you do with headphones?

What do you do with a vacuum?

What do your ears do?

What do you do with scissors?

What do they do?
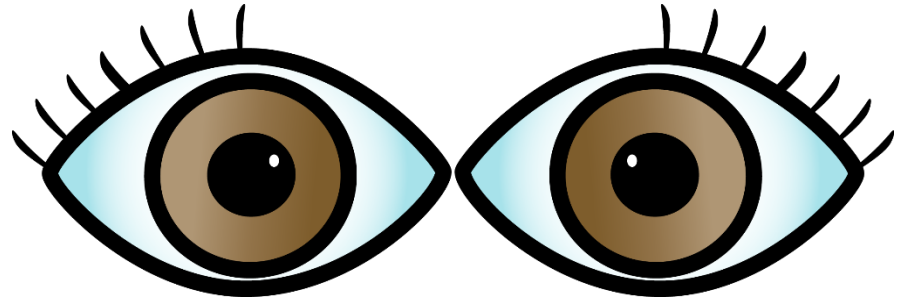

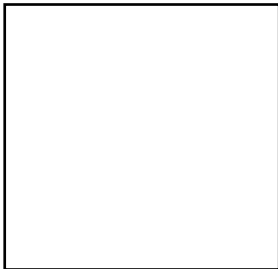

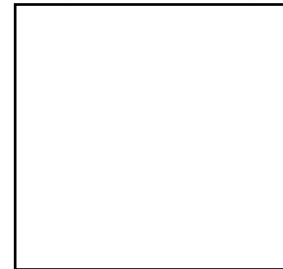

all about
APPEARANCE
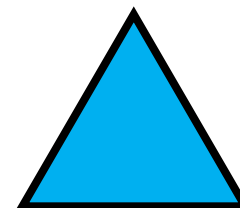

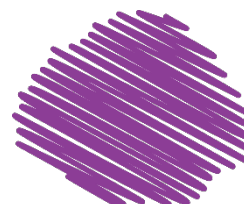

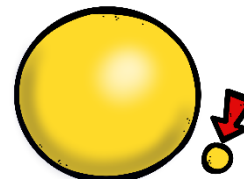

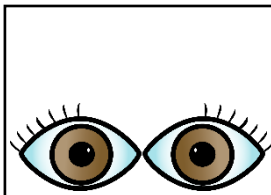

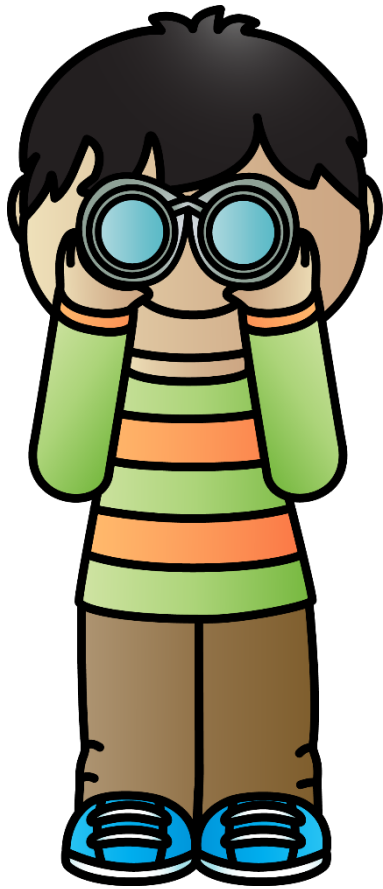

Everything looks a little different.
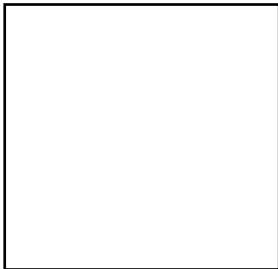

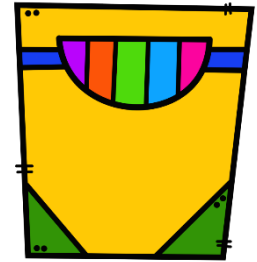

We can describe things by telling what they look like.
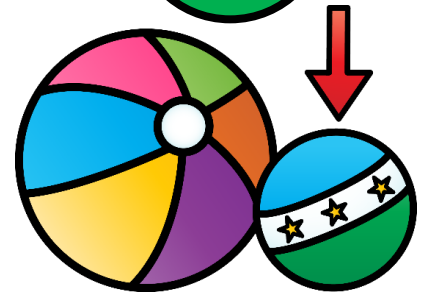

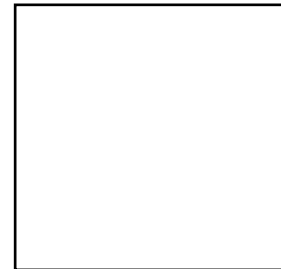

I can remember to tell what something looks like

COLOR

SHAPE

SIZE

Some ways we can say what something looks like is by telling its color, shape, or size.
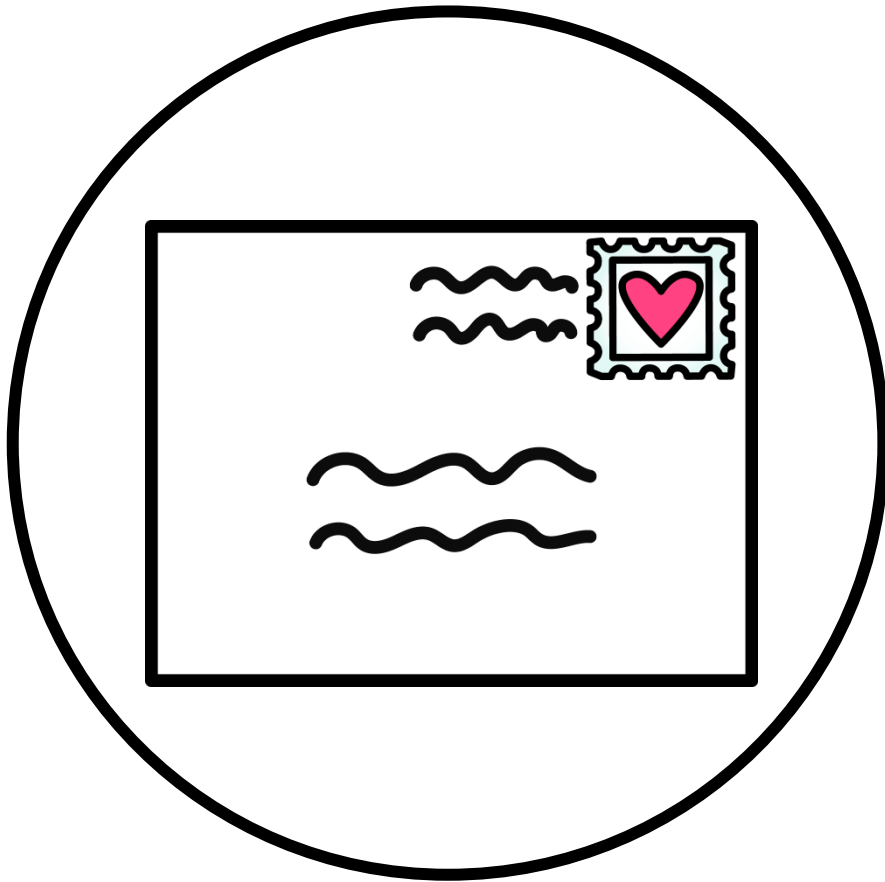

What color is a fire truck?

What color is grape jelly?

What color is a turtle?
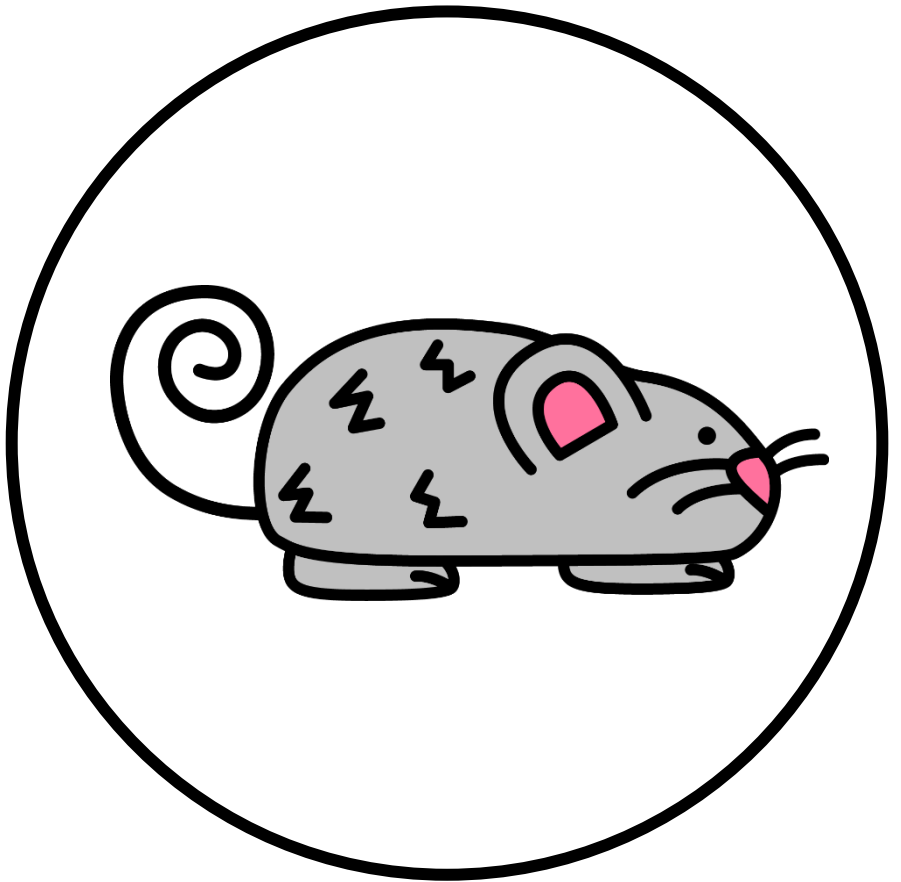

What shape is a basketball?
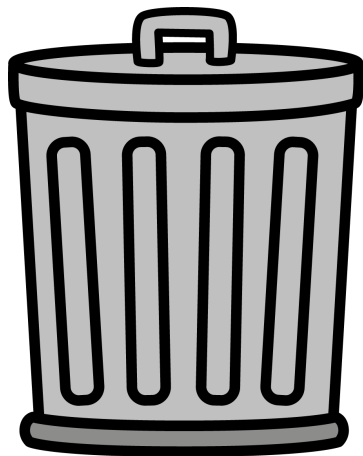

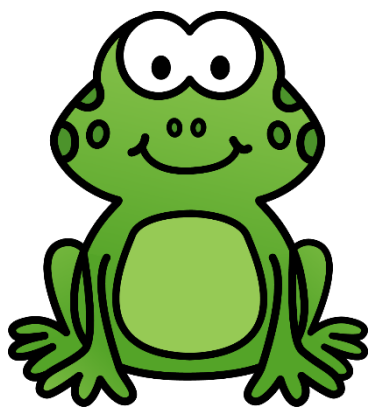

What shape is an envelope?

What shape is cheese?

What size is a whale?

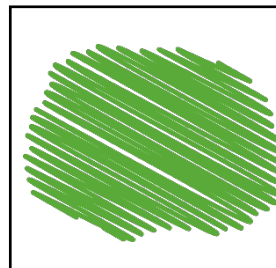

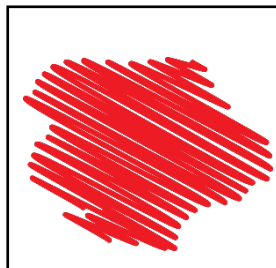

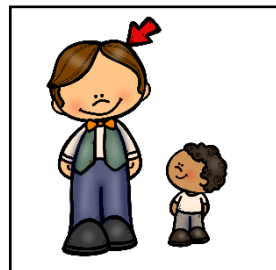

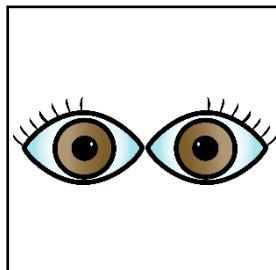

What size is a mouse?
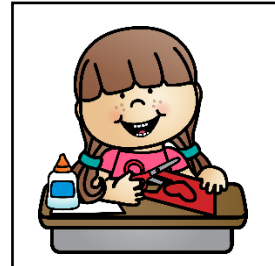

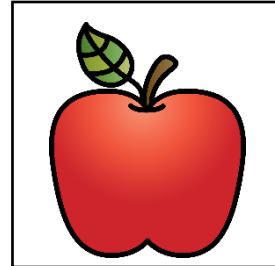

Can you tell what these things look like?
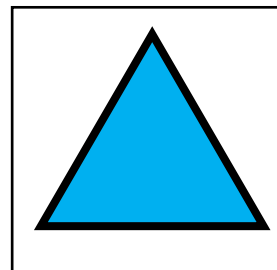

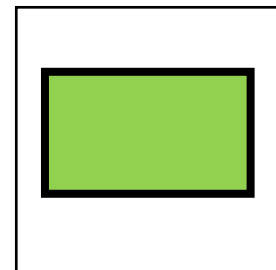

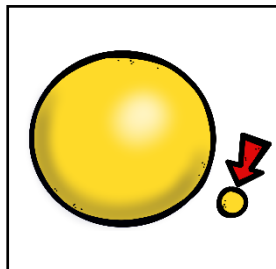

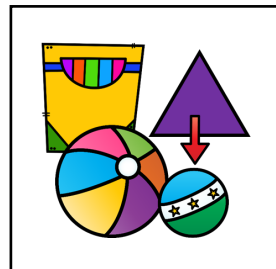

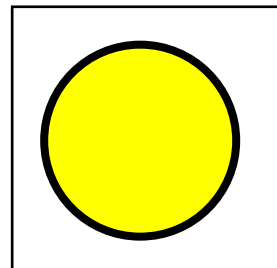

all about MATERIALS
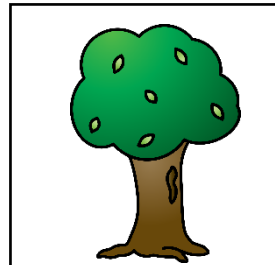

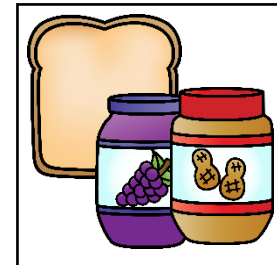

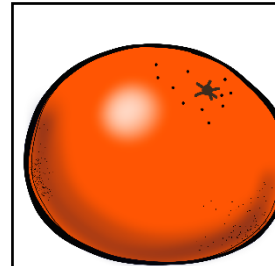

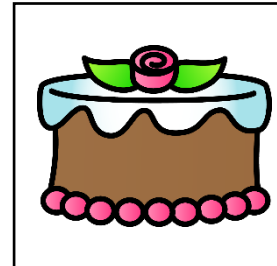

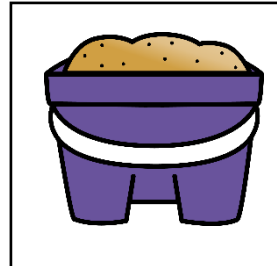

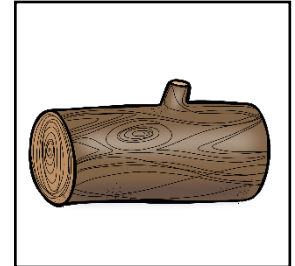

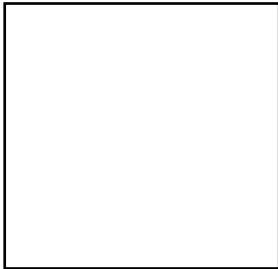

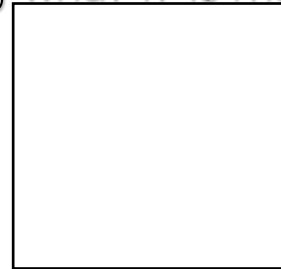

Everything is made of something different.

We can describe something by telling <u>what it is made of.</u>
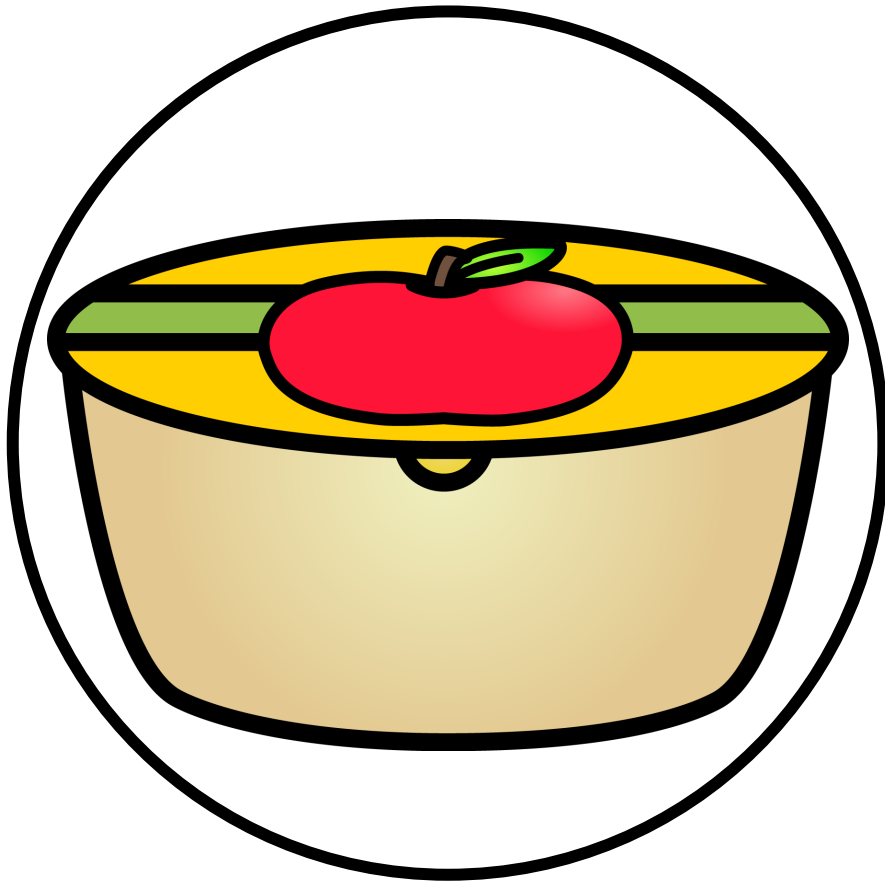

I can remember to tell what something is made of.

A cake is made of flour, sugar, and butter.
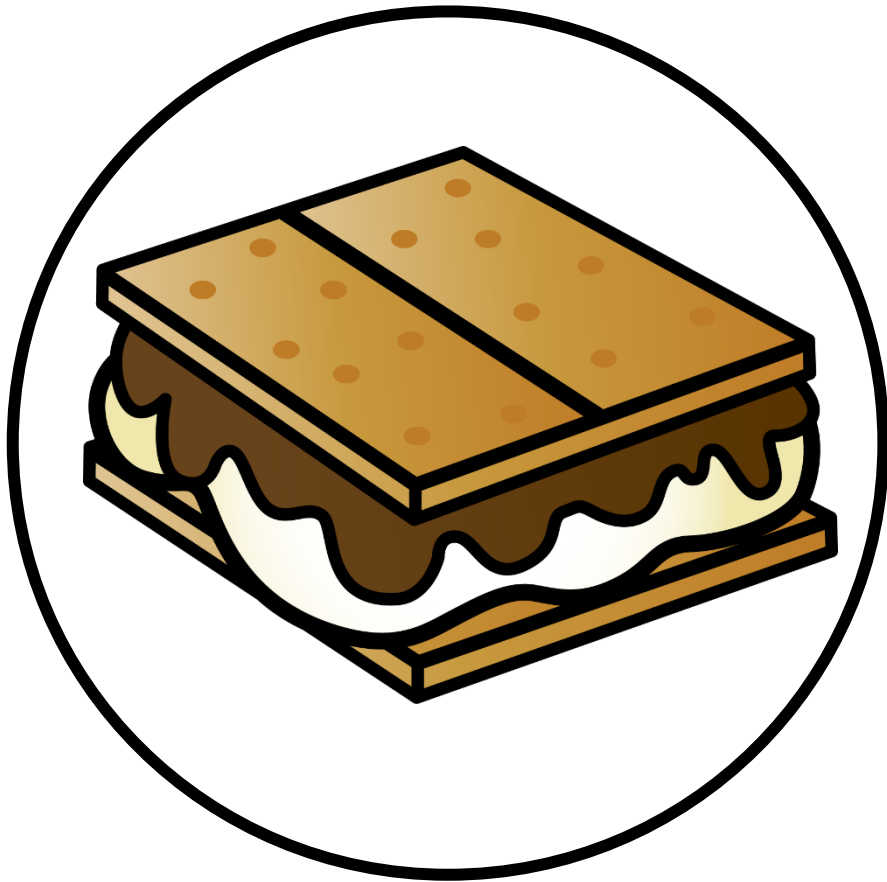

What is applesauce made of?
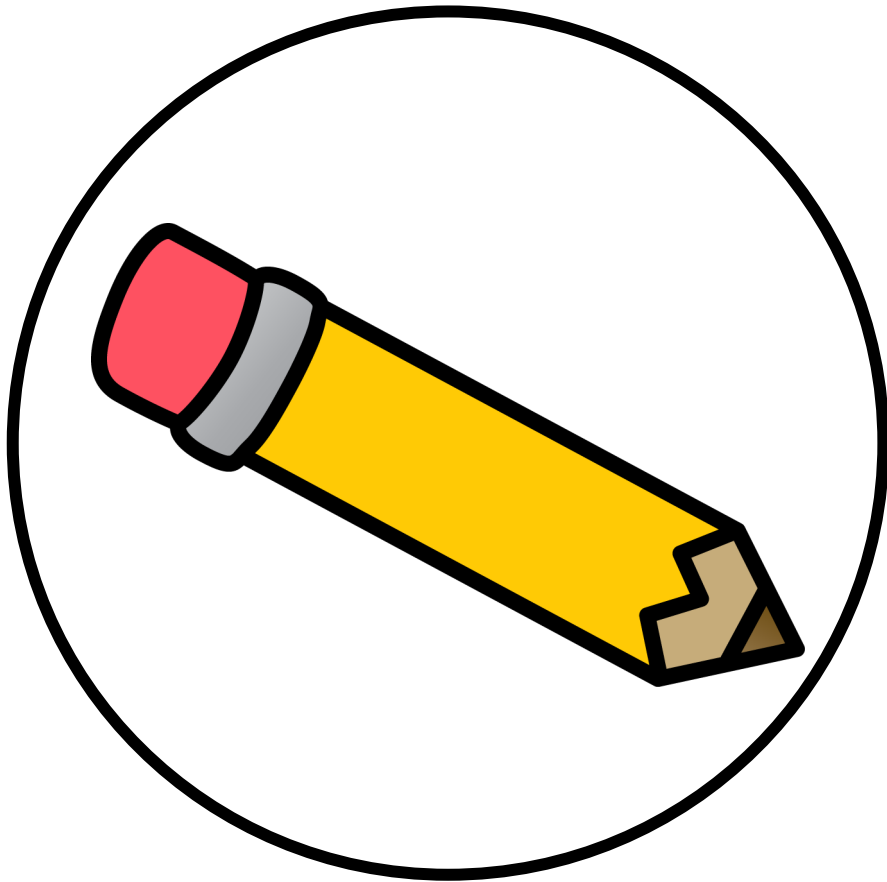

What is hot cocoa made of?
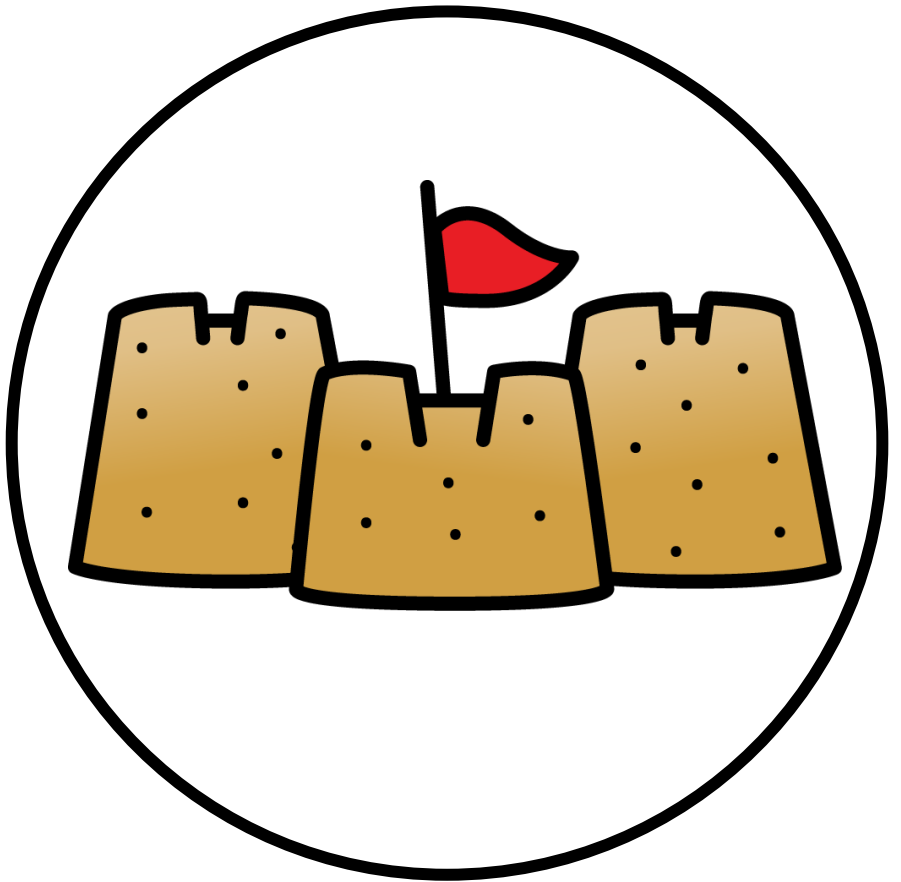

What is PB&J made of?

What is paper made of?

What is a s'more made out of?

What is orange juice made of?

What is a pencil made of?

What is a sandcastle made of?

Can you tell what these things are made of?
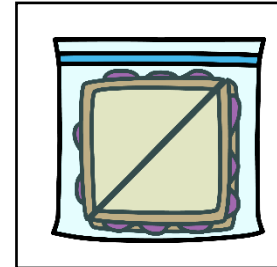

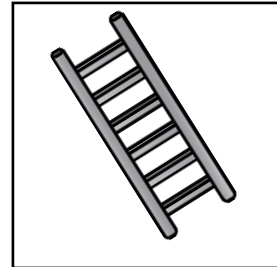

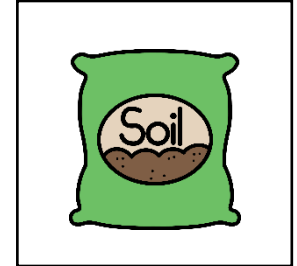

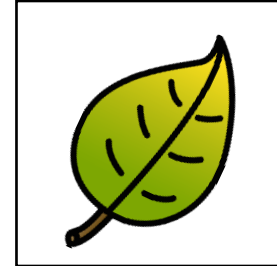

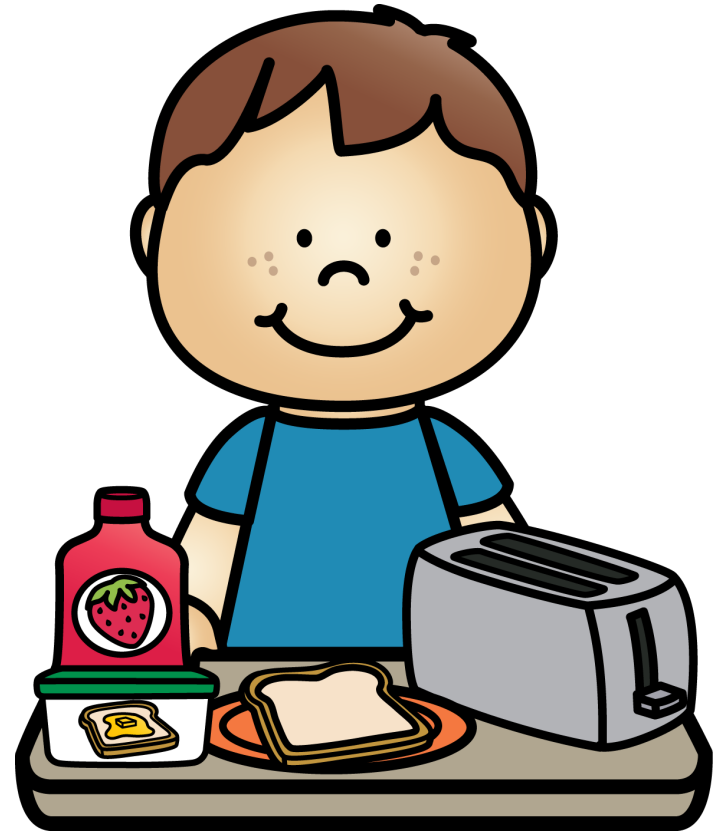

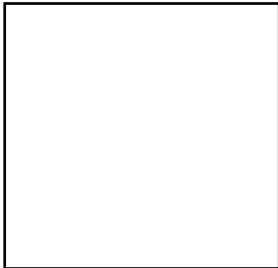

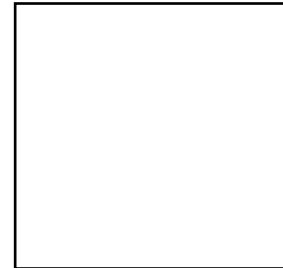

all about
# PARTS
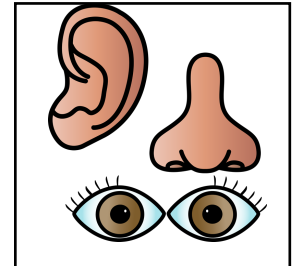

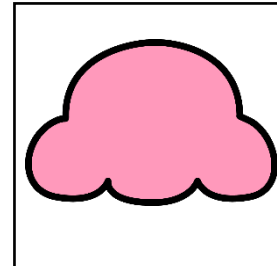

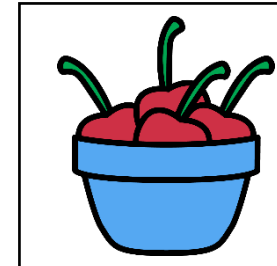

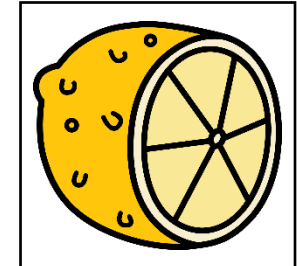

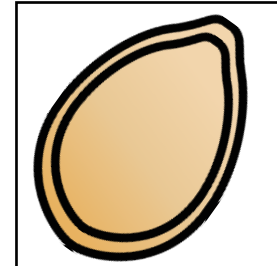

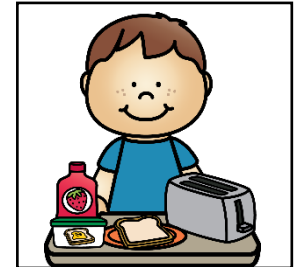

Everything has different parts.

We can describe something by telling what parts it has.

I can remember to tell what parts something has.

A person has ears, eyes, and a nose.

What is a part of an ice cream cone?

What is a part of a lunch?

What is a part of a tree?
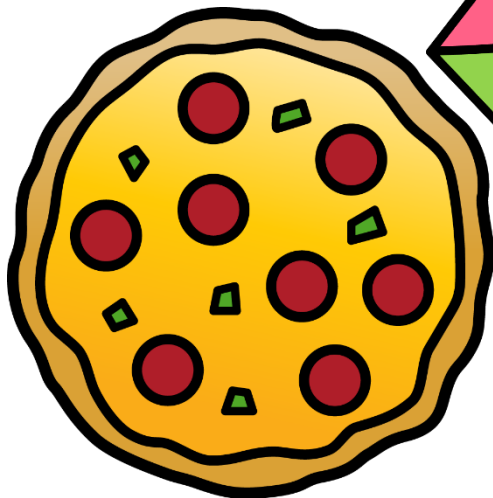

What is a part of a fire truck?

What is a part of a plant?

What is a part of a pumpkin?
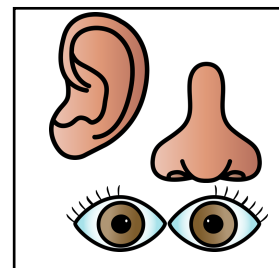

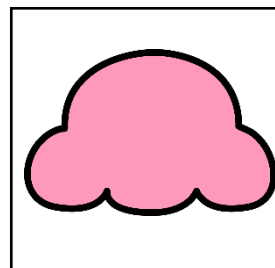

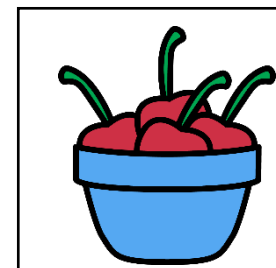

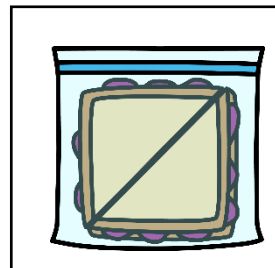

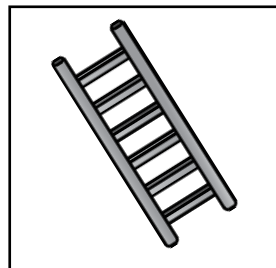

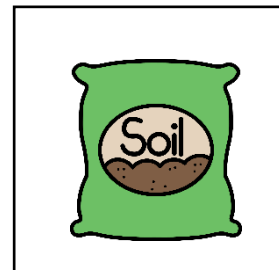

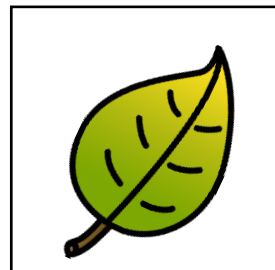

What is a part of a banana split?

What is a part of lemonade?

What are the parts of these things?
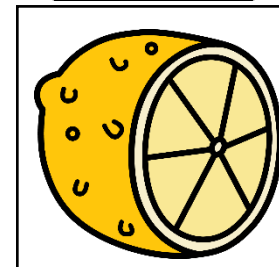

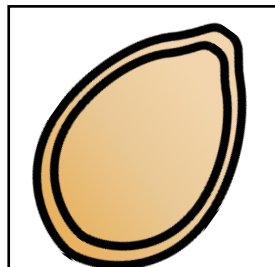

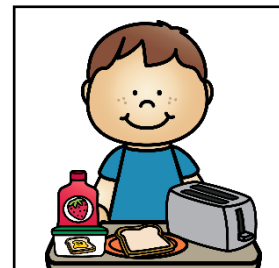

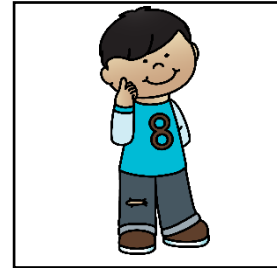

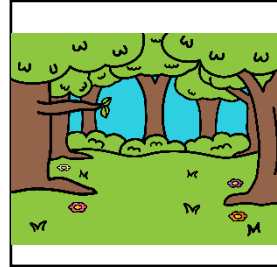

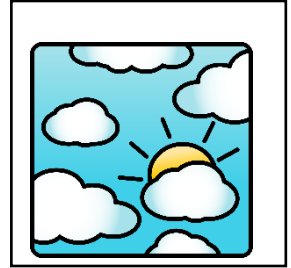

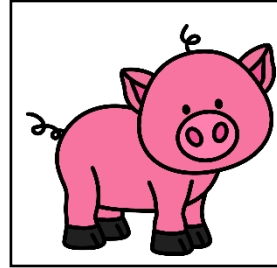

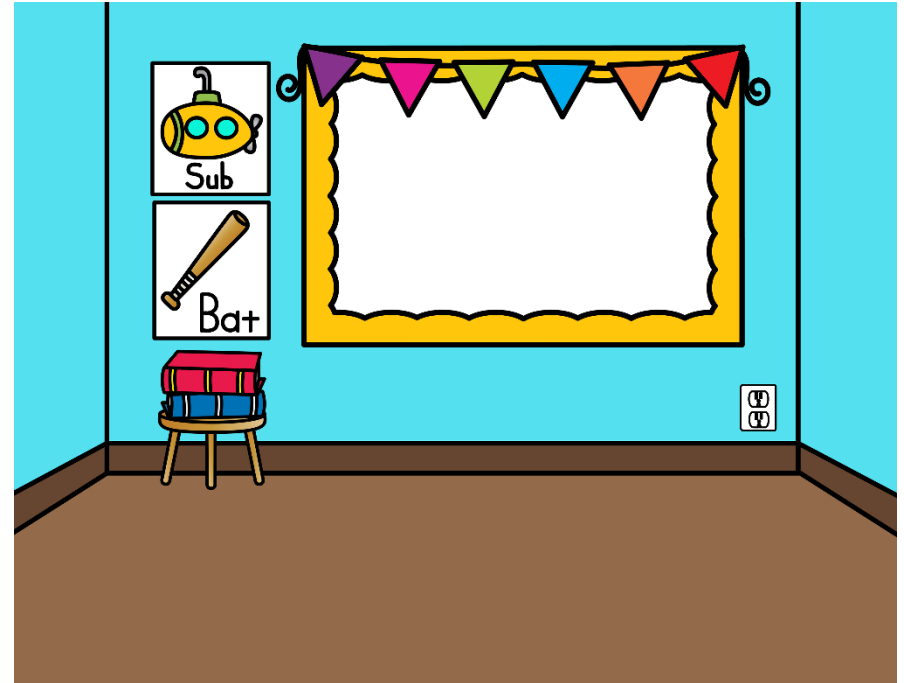

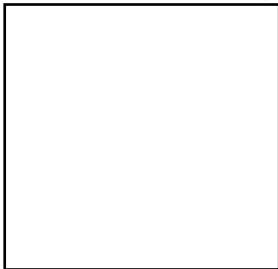

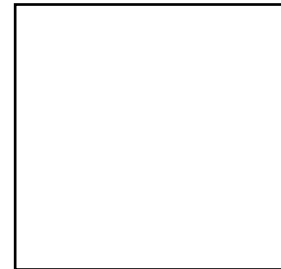

all about LOCATION
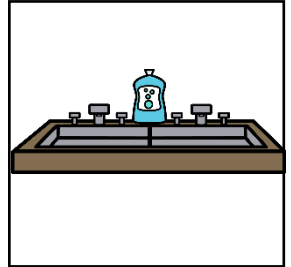

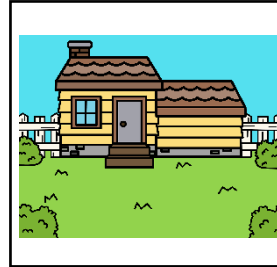

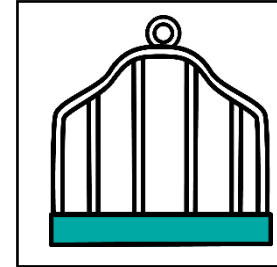

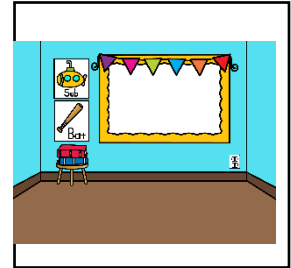

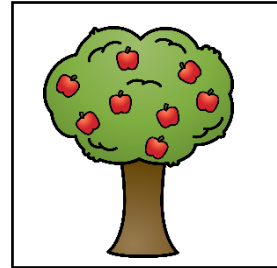

You can find different
things in different places.

We can describe something by
telling where we find it.

I can remember to tell
where you find something.
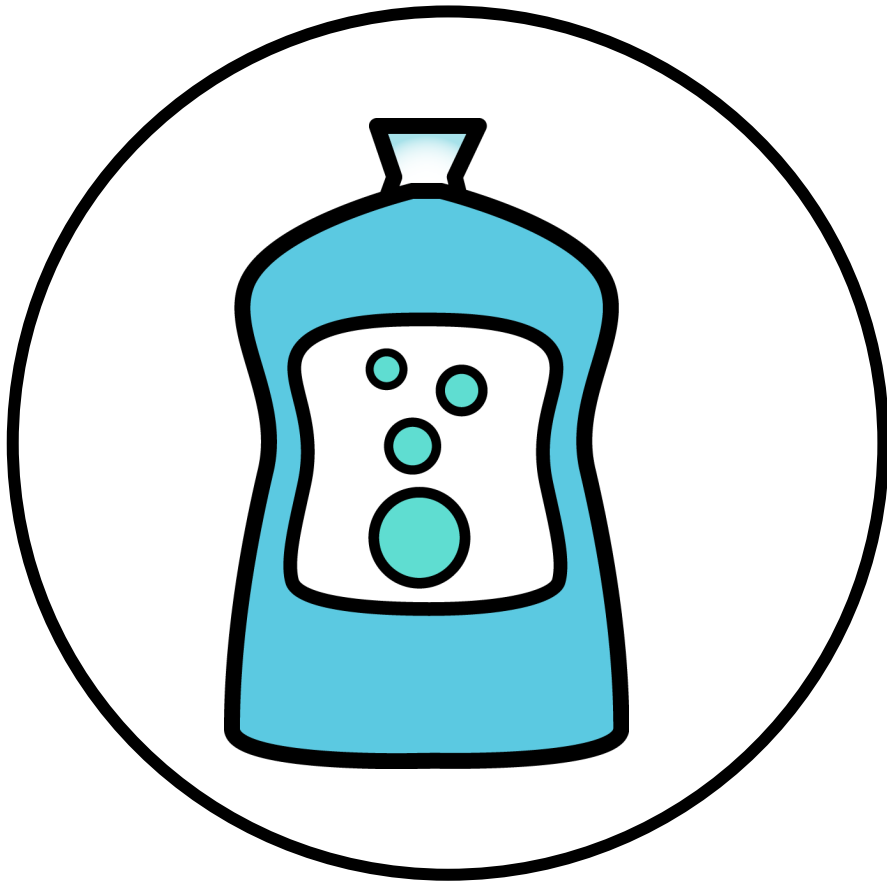

You find a pig on a farm.
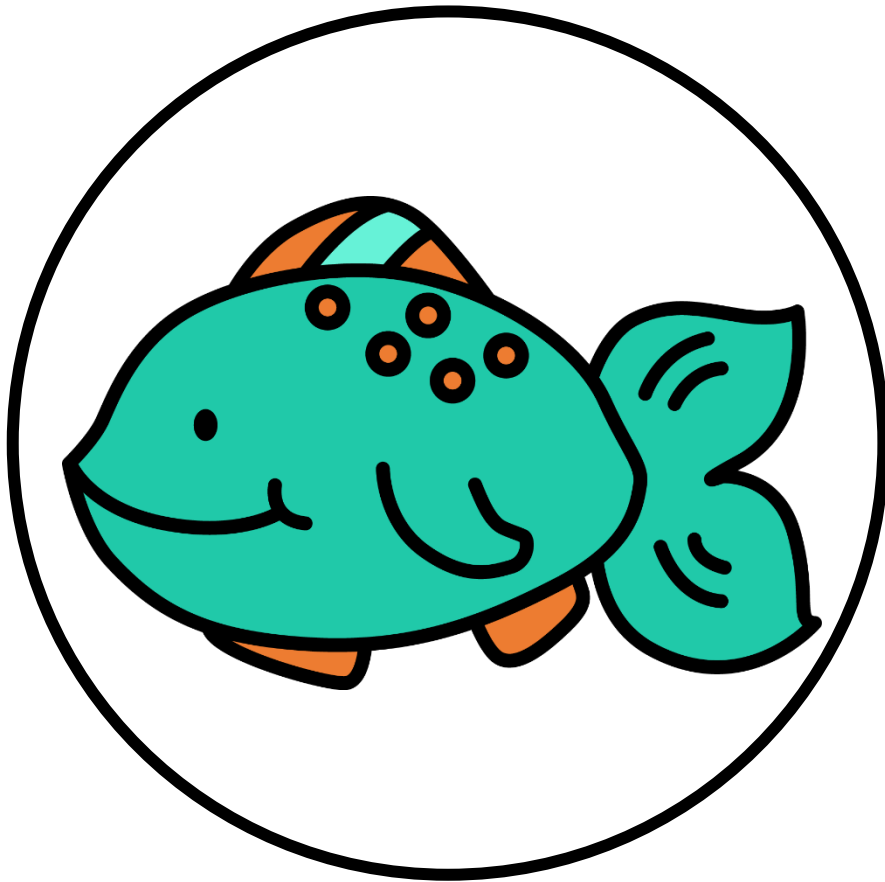

Where do you find an apple?
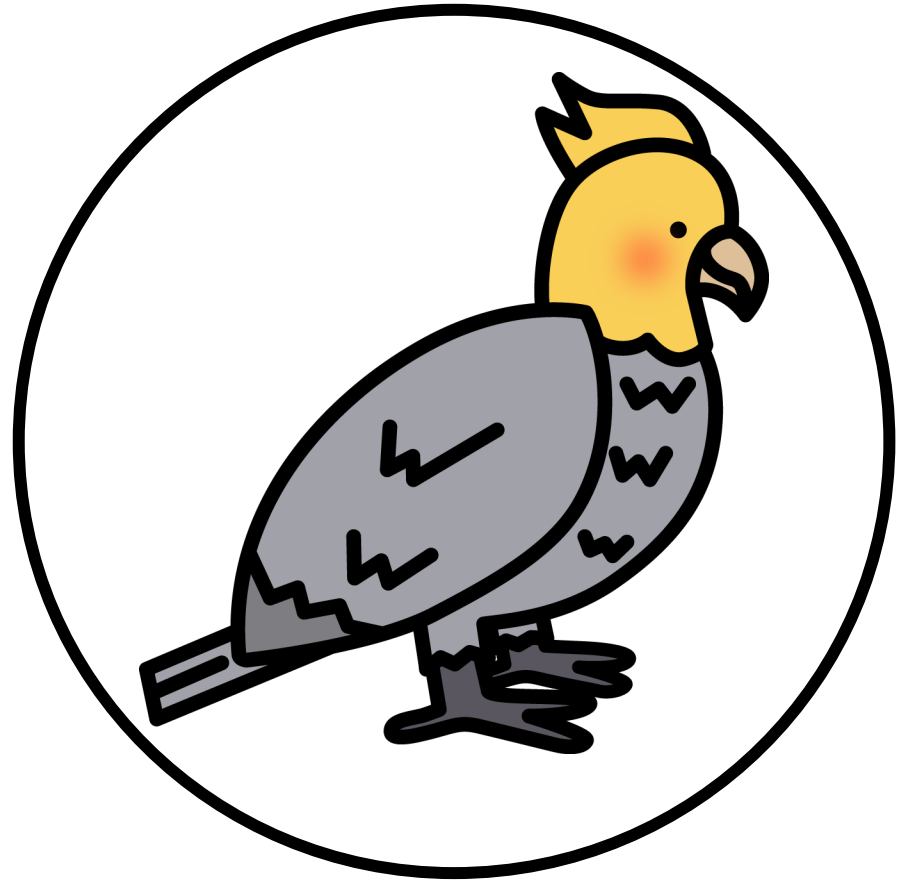

Where do you find toilet paper?
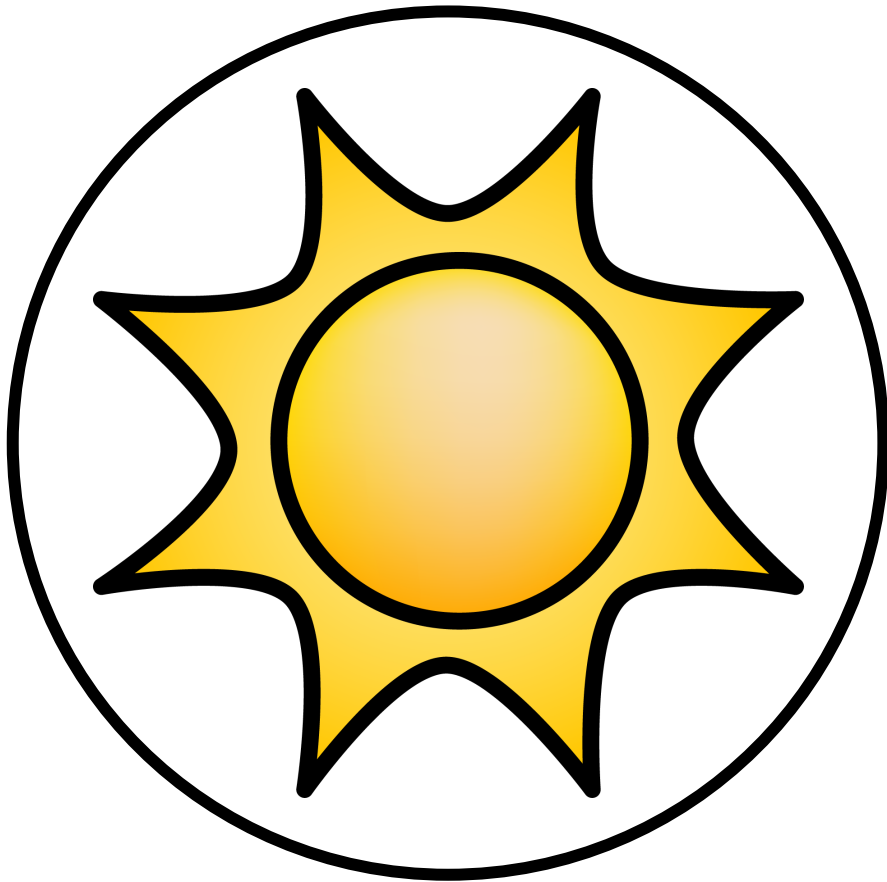

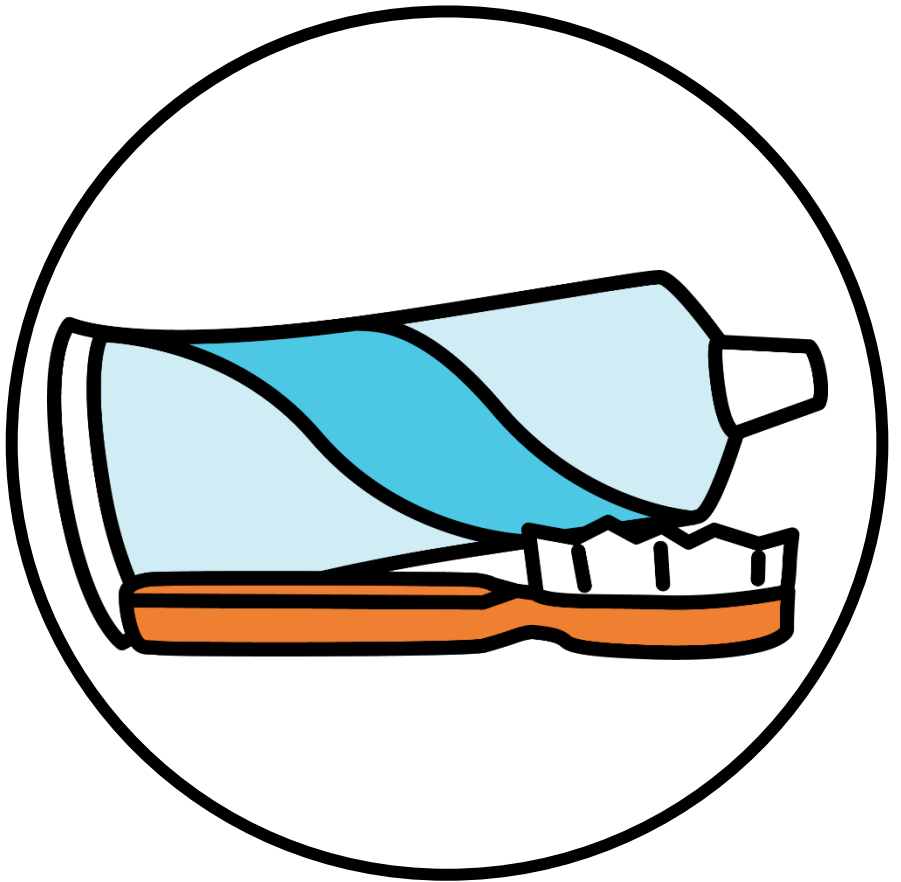

Where do you find dish soap?

Where do you find a bear?
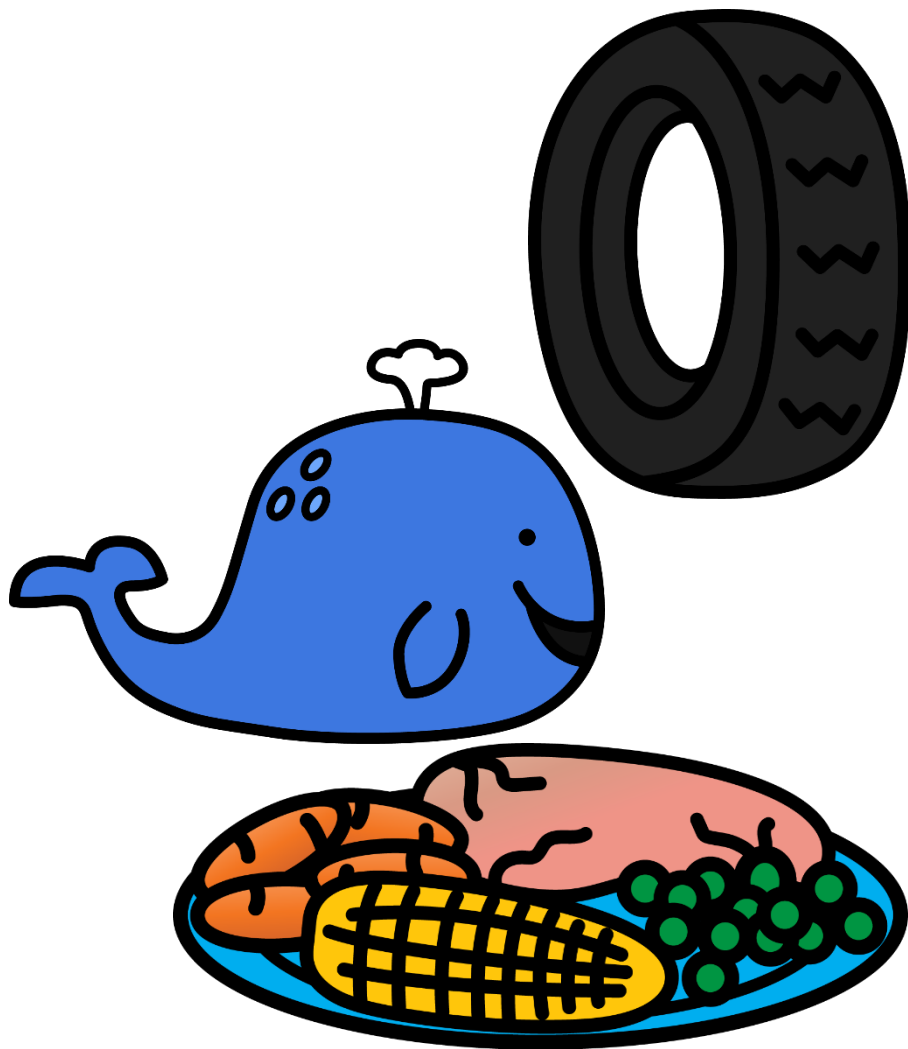

Where do you find fish?

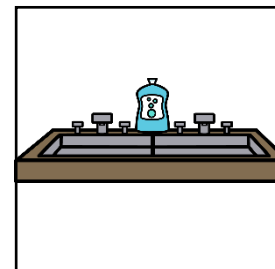

Where do you find a bird?

Where do you find the sun?

Where do you find a toothbrush?

Can you tell where you find these things?
